Apprenticeship Summary

Overview of the Role

Dealing with customer queries, purchases, and complaints.

Occupation Summary

The main purpose of a Customer Service Specialist is to be a 'professional' for direct customer support within all sectors and organisation types. The apprentice is an advocate of customer service who acts as a referral point for dealing with more complex or technical customer requests, complaints, and queries. The apprentice is often an escalation point for complicated or ongoing customer problems. As an expert in their organisation's products and/or services, they share knowledge with their wider team and colleagues. The apprentice gathers and analyses data and customer information that influences change and improvements in service. Utilising both organisational and generic IT systems to carry out their role with an awareness of other digital technologies. This could be in many types of environments, including contact centres, retail, webchat, service industry or any customer service point.

Link to Professional Registration

Completion of this apprenticeship will lead to eligibility to join the Institute of Customer Service as an individual member at professional level. Should the apprentice choose to progress on a customer service career path, they may be eligible for further professional membership, including management.

Assessment Methods

This end-point assessment (EPA) consists of three assessment methods:

Practical observation with questions and answers

Professional discussion supported by a portfolio of evidence

Work-based project, supported by an interview

Assessment Order

Although there is flexibility in the order in which each assessment method is carried out, it is recommended that the written work-based project takes place before the professional discussion.

EPA Window

All EPA components must be completed within three months of the start of the end-point assessment period.

Gateway Considerations

Before the apprentice can start their EPA, the training provider is required to upload the following:

- photo ID
- portfolio of evidence
- work based project proposal.

At gateway, the training provider is also requested sign a declaration to confirm that the English and maths requirements have been met in line with the funding rules.

Observation with Q&A

Planning the Observation

The apprentice must be given **two weeks' notice** of the practical observation date.

The practical observation must:

- reflect typical working conditions
- allow the apprentice to demonstrate all aspects of the standard
- take a synoptic approach to the assessment of overall competence
- be carried out on a one-to-one basis.

Practical Observation

The End-Point Assessor must observe the apprentice undertaking a range of day-to-day workplace activities. The practical observation must, therefore, take place in the apprentice's workplace.

The practical observation should involve activities which allow the apprentice to demonstrate the full range of their knowledge, skills, and behaviours (KSBs) required.

The practical observation is covered in one session, lasting **60 minutes**, with a permitted **10%** (+/-) variance.

During the practical observation, the apprentice should have the opportunity, if required, to move from one area or function of the business to another in order to best demonstrate how they have applied their KSBs in a realistic work environment to achieve genuine and demanding work objectives.

Questioning Session

Following the practical observation, a question and answer session will take place.

Criteria that do not occur naturally during the practical observation will be tested during the question and answer part of this assessment. This will allow the apprentice to demonstrate their knowledge and give examples of their competency in these areas, enabling them to reach all grade boundaries.

The questioning period should not exceed 15% of the total time allowed for the practical observation. Therefore, the question and answer session will last up to **10 minutes**, following the 60-minute (+/-10%) practical observation.

Grading

This assessment is graded as fail, pass or distinction, according to the grading criteria.

To achieve a pass in this assessment, the apprentice must meet all the pass criteria. To be awarded a distinction, they must meet all the pass criteria and all the distinction criteria.

If the apprentice does not meet all the pass criteria, this assessment will be graded as a fail.

Work-Based Project

Work-Based Project Report Overview

The apprentice must submit a written report on a project they have carried out. The project must meet the needs of the business and be relevant to their role. The work-based project should be designed to allow the knowledge, skills, and behaviours (KSBs) to be assessed for the end-point assessment.

This assessment comprises two components:

- a work-based project (including a work-based project proposal submitted at gateway)
- an interview.

Work-Based Project Proposal

Prior to gateway, and **before starting the work-based project report**, the apprentice will need to write a work-based project proposal.

The purpose of the work-based project proposal is for the apprentice to outline, in no more than **500 words**, what their project is about, and to demonstrate a **specific high-level challenge** they have encountered and how this challenge has the potential to meet KSBs assigned to this assessment component. This will be discussed in the assessment planning meeting.

If the End-Point Assessor does not accept the apprentice's work-based project proposal, the apprentice will have one week to submit a reworked project proposal using any feedback provided and the reason/s behind the initial submission being rejected.

If the work-based project proposal **is accepted**, the End-Point Assessor will sign this off, and the apprentice will then commence work on the work-based project report.

Work-Based Project Report

If the work-based project proposal is accepted, the apprentice will have **two months** from assessment planning meeting to write and submit the work-based project.

The employer must ensure that the apprentice has sufficient time and resources to plan and undertake the research, and produce their written report.

The specific high-level challenge the apprentice will describe in their project report could have taken place at any time during the apprenticeship and prior to their gateway, but the apprentice cannot write about it or complete their project report until the project proposal has been approved.

The specific high-level challenge could be a complaint or difficult situation that the apprentice has dealt with. The apprentice will need to explain:

- what the complaint/situation they were involved in was
- what actions (planning and execution) they took
- what solutions were offered
- details of any recommendations they made to change a policy or process
- any feedback from the customer
- what their responsibilities were
- what were the results.

The written report must be **2500 words** (+/- 10%), excluding annexes.

The work-based project report should contain annexes/appendices that are attributable to the apprentice and relevant to the actions they took in relation to the high-level challenge. Examples of evidence that could be included in the annexe/appendices are:

- emails
- letters
- meeting notes
- call logs
- workflow documents
- feedback.

Interview

An interview will support the work-based project report. This will take place at least two weeks after the apprentice submits the report to give the End-Point Assessor time to review their work and prepare for the interview.

The interview must take place in a <u>controlled environment</u>, free from any distractions. The interview can be conducted face to face or remotely via video conferencing using Microsoft Teams.

The interview will last for **60 minutes (+/-10%)** and will focus on the written project and supporting annexes. During the interview, the apprentice will be asked **10 competency-based questions**.

Grading

This assessment is graded as fail, pass or distinction, according to the grading criteria.

To achieve a pass in this assessment, the apprentice must meet all the pass criteria. To be awarded a distinction, they must meet all the pass criteria and all the distinction criteria.

If the apprentice does not meet all the pass criteria, this assessment will be graded as a fail.

Portfolio of Evidence

To support the professional discussion, the apprentice must produce an on-programme portfolio of evidence.

Apprentices must submit the portfolio of evidence **two weeks** prior to the date of the professional discussion.

From the apprentice's portfolio, they will need to select a minimum of 10 and a maximum of 15 pieces of evidence which will best support them in their professional discussion. Evidence may include, but is not limited to:

- witness statements
- customer feedback such as emails or letters
- manager feedback from one-to-one meetings or similar.

The portfolio of evidence is not directly assessed.

The <u>Portfolio Mapping and Tracking Form</u> allows the apprentice to identify which piece of evidence meets each KSB.

Professional Discussion

Following the submission of the apprentice's portfolio, the End-Point Assessor prepares questions for the professional discussion based on the contents of the portfolio and relevant to the KSBs assigned to this assessment.

The professional discussion will last for **60 minutes**, with a permitted 10% (+/-) variance. During the professional discussion, the End-Point Assessor may ask the apprentice follow-up questions that lead on from their initial question to test the apprentice's knowledge and skills further.

The apprentice may refer to their portfolio and to notes to help inform and validate their responses.

The professional discussion must take place in a <u>controlled environment</u>, free from any distractions. The professional discussion can be conducted face to face or remotely by video conferencing using Microsoft Teams.

Grading

This assessment is graded as fail, pass or distinction, according to the grading criteria.

To achieve a pass in this assessment, the apprentice must meet all the pass criteria. To be awarded a distinction, they must meet all the pass criteria and all the distinction criteria.

If the apprentice does not meet all the pass criteria, this assessment will be graded as a fail.

Overall Grading

The overall grades available for this apprenticeship are fail, pass, or distinction. Each assessment component is graded individually. Once an apprentice has completed all assessment components, the grades are combined as described in the table below to determine an apprentice's overall grade.

Observation	Work-Based Project	Professional Discussion	Overall Grade	
A fail	A fail in any assessment component will result in a fail overall			
Pass	Pass	Pass		
	Distinction	Distinction	Pass	
Distinction	Pass	Pass		
Distinction	Distinction	Distinction	Distinction	

Resits and Retakes

If an apprentice fails any of the individual assessment components, they will be eligible for a resit or retake. Further development must be provided prior to a resit or retake. A retake requires the apprentice to undertake further learning and therefore they would need to go through the gateway process again.

An apprentice cannot retake or resit any part of the EPA to increase their grade from a pass to a distinction. If a resit or retake is required, the overall EPA grade will be capped at a pass, unless Training Qualifications UK determines there are exceptional circumstances.

If a retake or resit is required, the apprentice should complete this within **12 months**. There is no limit to the number of retake or resits within the 12 months.

If the apprentice fails the work-based project, they will be asked to rework their project, taking into account the feedback from the assessor. The apprentice will have **one month** to rework their submission. The apprentice will be able to submit previous evidence along with the new additional evidence.

Appeals

Training Qualifications UK's Appeals Policy, including time frames, can be found <u>here</u>.
