Apprenticeship Summary

Overview of the Role

Leading frontline care for vulnerable adults within their own homes, day care centres, residential and nursing homes, and other healthcare settings.

Occupation Summary

Role profile (what the successful candidate should be able to do at the end of the apprenticeship)

Lead Adult Care Workers are the frontline staff who help adults with care and support needs to achieve their personal goals and live as independently and safely as possible, enabling them to have control and choice in their lives. In addition, Lead Adult Care Workers have responsibility for providing supervision, frontline leadership, guidance, and direction for others, or working autonomously, exercising judgement and accountability.

Typical job titles include Care Officer, Care Supervisor, Senior Care Worker, Supervising Care Worker, Senior Support Worker, Relief Team Leader, Social Work Assistant, Social Services Officer, Outreach Development Worker, Community Support Worker, Community Outreach Worker, Community Development Worker, Family Support Worker, or Personal Assistant. These could all specialise in a variety of areas such as learning disability, mental health, drug and alcohol misuse, homecare, dementia and end-of-life care.

As a Lead Adult Care Worker, you will make a positive difference to someone's life when they are faced with physical, practical, social, emotional or intellectual challenges. You will be expected to exercise judgement and take appropriate action to support individuals to maintain their independence, dignity, and control. By providing leadership, guidance, and direction at the frontline of care delivery you will be instrumental in improving the health and wellbeing of those receiving care and support. Lead Adult Care Workers will in some circumstances have delegated responsibility for the standard of care provided and may supervise the work of other care workers. This exercising of autonomy and accountability means leading and supporting others to comply with expected standards and behaviours.

Lead Adult Care Workers may work in residential or nursing homes, domiciliary care, day centres or some clinical healthcare settings. As well as covering Lead Adult Care Workers this standard also covers Lead Personal Assistants who can work at this senior level, but they may only work directly for one individual who needs support and/or care services, usually within their own home.

- Level 2 Functional Skills English and Maths

Assessment Methods

This end-point assessment (EPA) for this standard consists of two assessment methods:

Situational Judgement Test

Professional Discussion

Assessment Order

The situational judgement test must be passed before the professional discussion can take place.

Situational Judgement Test

Assessment Overview

The situational judgement test will consist of **60 questions** with four possible answers for the apprentice to choose from, one of which is correct. One mark is awarded for each correct answer. The questions will assess the knowledge criteria assigned to this assessment method.

The apprentice must pass the situational judgement test before the professional discussion.

Timing

The test will last **90 minutes**.

Location

The test can be taken on paper or online. This is a formal assessment which must take place in a controlled environment.

Grading

This assessment is graded according to the table below.

Marks	Percentage	Grade
0-39	0-65%	Fail
40-49	67-82%	Pass
50-54	83-90%	Merit
55-60	92-100%	Distinction

Results for online exams are distributed within **two working days** of test completion and paper-based exam results are distributed within **five working days** of Training Qualifications UK receiving the required documents.

Resits and Retakes

If the apprentice achieves between 25 and 39 correct answers on the first attempt, they may resit the situational judgement test on **one further occasion** within three months.

If the apprentice achieves fewer than 25 correct answers on the first attempt, they may only retake the assessment once they have undertaken a formal review with the employer and On-Programme Assessor and acted on its findings. This review aims to provide additional learning and development in order to support a more successful outcome.

In the case of a resit or retake, the maximum grade awarded will be a pass.

Answers are limited to reference only to give assurance of their awareness of them. • The apprentice relies heavily on their notes to guide them through the discussion and does not lead the discussion.
