# Apprenticeship Summary

## Overview of the Role

Managing teams of frontline carers to look after vulnerable adults with care needs.

## Occupation Summary

The Lead Practitioner in Adult Care will guide and inspire team members to make positive differences to someone's life when they are faced with physical, practical, social, emotional, psychological, or intellectual challenges. They will have achieved a level of self-development to be recognised as a lead practitioner within the care team, contributing to, promoting, and sustaining a values-based culture at an operational level. A Lead Practitioner has a greater depth of knowledge and expertise of particular conditions being experienced by the user of services. They will have specialist skills and knowledge in their area of responsibilities which will allow them to lead in areas such as care needs assessment, occupational therapy, physiotherapy, rehabilitation and enablement, telecare and assistive technology. They will be a coach and mentor to others and will have a role in assessing performance and quality of care delivery. Lead Practitioners in Adult Care may work in residential or nursing homes, domiciliary care, day centres, a person's own home or some clinical healthcare settings. As well as covering Lead Practitioners in Adult Care this standard also covers Lead Personal Assistants who can work at this senior level but they may only work directly for one individual who needs support and/or care services, usually within their own home.

- Care – is caring consistently and enough about individuals to make a positive difference to their lives
- Compassion – is delivering care and support with kindness, consideration, dignity, empathy and respect
- Courage – is doing the right thing for people and speaking up if the individual they support is at risk
- Communication – good communication is central to successful caring relationships and effective team working
- Competence – is applying knowledge and skills to provide high quality care and support
- Commitment – to improving the experience of people who need care and support ensuring it is person centred.

## Typical Job Titles

Dementia Lead, Re-ablement Worker, Physiotherapy Assistant, Occupational Therapy Assistant, Public Health Associate Worker, Keeping in Contact Worker, Community Care/Support Officer, Social Care Assessor, Care Assessment Officer, Social Services Officer, Brokerage Worker, Rehabilitation and Reablement Assistant, Independence Support Assistant, Reablement Support Workers/Officer, Telecare Assistant and Assistive Technology Co-ordinator/Officer.

# Gateway

## Gateway Requirements

Before the apprentice can start their EPA, the training provider is required to upload the following evidence:

	<b>Level 2 Functional Skills English and Maths</b>
	<b>Level 4 Diploma in Adult Care (RQF) or equivalent</b>
	<b>Valid DBS Certificate</b>
	<b>Portfolio of Evidence</b>
	<b>Observation Scope and Checklist</b>

# Assessment Methods

This end-point assessment (EPA) consists of two assessment methods:

Observation

Professional Discussion

## Assessment Order

Assessment must be completed over a maximum total assessment time of two days and can take place in any order.

## EPA Window

All assessment components must be completed within four months of the EPA gateway.

# Observation of Practice

## Observation of Location and Duration

The observation can take place face-to-face or remotely.

The total observation period will last **75 minutes**. This will typically comprise of 60 minute direct observation followed by a 15 minutes questioning session. The End-Point Assessor has the discretion to increase the total time of the observation and questioning by up to 10% to allow the apprentice to complete the apprentice's last task or answer. No new tasks will be observed after the time limit has been reached.

## Observation of Practice Scope and Checklist

Suitable planning for the observation activity is **essential** and the apprentice is required to use the observation of practice scope and checklist (checklist) to ensure that the planned observation activity has the scope to cover the required skills and behaviours assigned to this assessment method.

Together with the checklist, the apprentice may submit supporting documentation i.e., a PowerPoint Presentation or relevant supporting documentation. Should the apprentice choose to do this, they must share any such documentation with the End-Point Assessor at least seven days before the observation.

The observation of practice scope and checklist must be completed prior to gateway and submitted as part of the gateway evidence. Following allocation, the appointed End-Point Assessor will review the scope before the assessment planning meeting, where this will be discussed between the apprentice, employer and End-Point Assessor.

If the scope is not agreed, feedback will be provided at the bottom of the checklist for the apprentice to use when reworking planned activity for a further submission.

## Planning the Observation

Observation of practice must enable the apprentice to demonstrate their skills, behaviours, and leadership to external/internal stakeholders. The apprentice must lead the observed activity and will have prepared for this after the gateway in agreement with the employer and TQUK, see observation of practice below.

The apprentice will be given a minimum of two weeks and a maximum of four weeks to prepare for this activity following the gateway.

The apprentice must ensure that the appropriate organisational staff are present at the activity and are notified in advance of the activity. The selected activity must be based on real-life improvement to the employer and the people who use their services.

Examples of observed activities could include:

- Preparing for a best interest meeting through consultation with the care staff team. This should include the rationale around the need to trigger the meeting, the roles, and responsibilities of who should be involved and the potential implications for the service.
- Leading a meeting where they guide and support colleagues around how to implement the required care delivery within the service to support people that use the services regarding their identified care needs, goals and required outcomes.
- A response to regulatory and legislative requirements that specifically impact upon how the needs of people that use the services are being met. For example, this could be communicating the outcomes of working with external partners and stakeholders so as to deliver positive change to the people being supported by the service.
- Development of service provision so that it can improve service delivery to more effectively meet the needs and aspirations of the people that use the services. For example, this may be in the form of presenting some information or analysing data in relation to evidence based practice to develop or improve the service provision.

## Questioning Session

Immediately following the observation, a 15-minute questioning session will take place. The End-Point Assessor may extend this by +10% to allow the apprentice to complete the apprentice's final answer or point.

Questioning session will be conducted on a one-to-one basis, away from the group activity which the apprentice were observed leading.

The End-Point Assessor will ask a minimum of three questions based on the leadership activity they observed. They may ask additional questions to seek clarification on points which may not have been clear.

## Grading

This assessment is graded pass or fail according to the grading criteria.

To achieve a pass in this assessment, the apprentice must meet all the pass criteria. If the apprentice does not meet all the pass criteria, this assessment will be graded as a fail.

# Overall Grading

This standard is graded distinction, pass or fail. Each assessment component is graded individually. Once the apprentice has completed all assessment components, the grades are combined as described in the table below to determine apprentices overall grade.

Observation of Practice	Professional Discussion	Overall Grade
Pass	Pass	Pass
	Distinction	Distinction
A fail in any assessment component will result in a fail overall.		

## Resits and Retakes

If the apprentice fails any of the assessment components, they will be eligible for a resit or retake. A resit does not require further learning, whereas a retake does.

Apprentices should have a supportive action plan to prepare for the resit or a retake. The employer will need to agree that either a resit or retake is an appropriate course of action. The number of attempts the apprentice is permitted when resiting or retaking the assessment is at the discretion of the employer.

Apprentices complete a different observation of practice activity and have a professional discussion which includes different questions, when taking a resit/retake.

An individual EPA component resit/retake must be taken within a period of three months from the fail notification, otherwise the entire EPA must be retaken.

If the apprentice requires a resit or retake, their overall EPA grade will be capped at a pass, unless Training Qualifications UK determines there are exceptional circumstances.

Apprentices are not permitted to resit/retake to move from a pass to a distinction.

## Appeals

Training Qualifications UK's Appeals Policy, including time frames, can be found [here](#).
