TEFL

**Teaching English as a
Foreign Language**

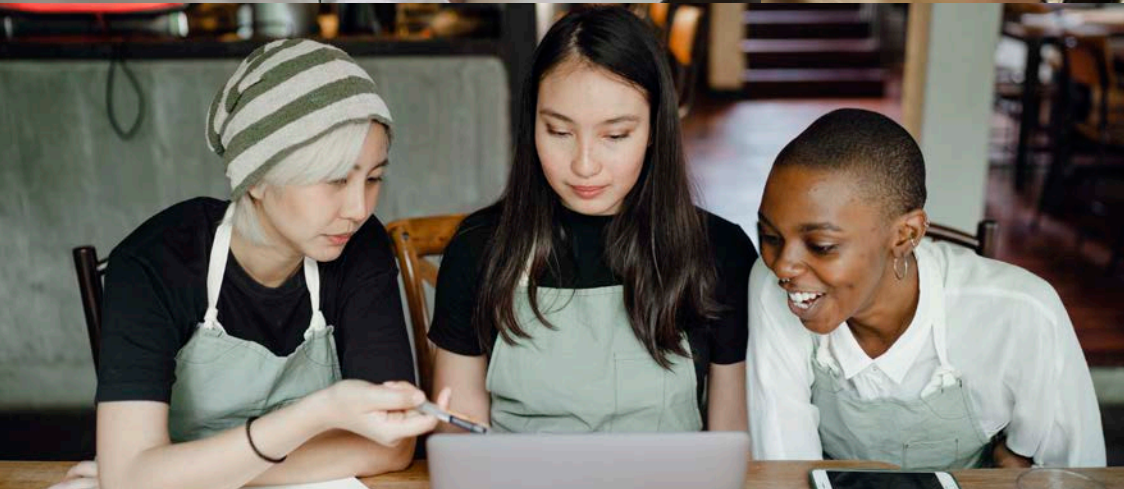

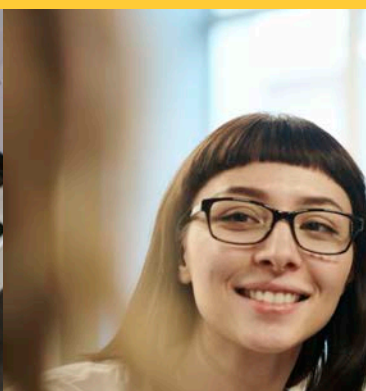

What's the secret to our success?

Here at Training Qualifications UK, we place international standards of quality at the heart of our regulated Teaching English as a Foreign Language (TEFL) qualification.

As an Ofqual Awarding Organisation, TQUK puts every regulated qualification that we offer through stringent checks and quality assurance processes, ensuring that the qualification meets, in the case of TEFL, international standards for teaching English abroad.

For the learner, this guarantees that their TEFL qualification means the same no matter where in the world they look to teach English abroad. The regulated qualification ensures to any employer that the qualification achieved has been accurately ascertained and meticulously processed.

TEFL certification programs help to build necessary skills in individuals that help them become effective teachers who can create their own teaching methods.

Benefits of a TEFL Certification

1

Prepares you for the classroom

TEFL is especially useful to those who are new to being a teacher, as it teaches effective methods do learners gain the confidence and are more comfortable from day one.

2

Shapes you into a better person for your students

Every student you teach will have different learning techniques and styles. With a TEFL course, learners will learn and understand what teaching methods are most suitable for every kind of individual.

3

Valuable Cultural Skills

A quality TEFL certification provides learners with sensitivity training, so they understand how to communicate with their students and co-workers effectively.

“English is considered the international language and demand for learning English is high around the World. The ability to teaching English as a foreign language opens up and exciting range of teaching opportunities all across the globe, especially appealing for people who like to travel. Our Teaching English as a Foreign Language qualifications develop essential knowledge and skills required for teaching and assessing learners, including how to prepare lesson plans and teaching resources.”
